

FLEXPRINT CABLE CONNECTOR

M901

M SERIES

PL-0272

This module allows 36 lines to be used as signals and/or grounds. The 100 ohm resistors connected in series with the modules pins A2, B2, U1 and V1 are provided to afford some measure of protection in the event that these pins are inadvertently connected to a source of supply voltage.

Input: Recommended current per line is 100 ma. maximum.
