

**MODULE EXTENDER
W982,**

HARDWARE

The W982 serves a function similar to the W980 except it contains 36 pins for use with M series modules. The W982 can be used with all modules in this catalog. A, K, and W series modules will make contact with only 2 side pins. A2, B2, etc.

For double size M Series modules use two W982 extenders side by side.
